

Jackrabbit Soccer has a storied history dating back to its inaugural season in year in 2000. The team’s growth and commitment to excellence has led to nine NCAA tournaments, 16 championships, 98 All-Summit League honorees including 58 first team selections, 23 Summit League Yearly Award Honors, and 18 NSCAA/USC All-Region selections, including one NSCAA All-American. In 2025, the program won its third consecutive Summit League Tournament championship. The Jackrabbit soccer team has won at least 13 matches in five straight seasons.

“We are thrilled about the future of Jackrabbit Soccer. Moving to campus will launch our program towards even great success over the next 20 years. The increased visibility will elevate the student athlete experience for the amazing young women within our program.”

*Brock Thompson,
Head Coach*

Thanks to a leadership gift commitment from Dakota Layers and the Ramsdell Family in November 2025, SDSU is moving its main competition facility from Fishback Soccer Park to a more centralized on-campus location. The move will enhance the student-athlete experience, boost recruiting efforts, and create a vibrant game-day atmosphere. The new facility will be located east of Dana J. Dykhouse Stadium on the corner of Jackrabbit Avenue and North Campus Drive.

The stadium will provide the Jackrabbit women’s soccer program with dedicated, purpose-built space, including a new competition pitch and support amenities. Some key features of this project include a state-of-the-art field, lighting, a new scoreboard, permanent grandstand and press box, as well as covered benches.

With the leadership gift committed and architectural planning underway, there is an estimated cost upwards of \$5,000,000. We need your support to ensure this facility is completed in its full vision! Naming opportunities exist in several areas within the stadium.
